WHAT WE OFFER

Wintrox E-shoppy Pvt. Ltd. in collaboration with Banks will enable you to provide complete Banking Services using Aadhaar Enabled Payment System (AEPS) platform This service from Wintrox E-shoppy Pvt. Ltd. will play a major role in financial inclusion initiative of Government of India and will bring Banking Services at the doorstep of consumers.

AePS provides people with the ease of use as they do not have to carry the ATM card with them to withdraw cash or for fund transfer. The account number need not be provided as it is already fed once you mention your Aadhar number in the PoS machine or the micro-ATM.

AePS
AADHAAR ENABLED PAYMENT SYSTEM

MONEY TRANSFER

Now transfer money from your Wintrox E-shoppy Wallet to any bank account using Wintrox E-shoppy Pvt. Ltd. You can check balance, transfer money to your friends & family, request money securely on Wintrox E-shoppy Pvt. Ltd. Money transfer on Wintrox E-shoppy Pvt. Ltd. is powered by BHIM UPI, a revolutionary technology which enables payment to your bank account directly using mobile number only. Now, you can transfer money only using UPI Address, Mobile Number or Account Number IFSC Code based money transfer.

PAN CARD

Permanent Account Number or PAN is a means of identifying various taxpayers in the country. PAN is a 10-digit unique identification alphanumeric number (containing both alphabets and numbers) assigned to Indians, mostly to those who pay tax. The PAN system of identification is a computer-based system that assigns unique identification number to every Indian tax paying entity. Through this method, all tax-related information for a person is recorded against a single PAN number which acts as the primary key for storage of information. This is shared across the country and hence no two people on tax paying entities can have the same PAN.

NSDL Technology, Trust & Reach   **uti** UTI Infrastructure Technology And Services Limited

BHARAT BILL PAYMENT SYSTEM

The biggest advantage is that the bill can be paid anywhere and anytime. There would be retail points for bill payments across the country who would be able to accept all kinds of bills payments made through Internet banking. The BBPS payments would be made securely through the NPCI network with instant receipts getting generated.

BANK ACCOUNT VERIFICATION

▶ INTRODUCTION

A mandatory compliance for financial institutions to provide their financial services by validating the bank account holder by retrieving the bank account number and IFSC code

▶ FEATURES

Fast: Check and verify an individual's bank account instantly in seconds.

Easy Verification: An absolute proof provided by entering Bank Account Number and IFSC Code of the Bank. Best Response: The response returns the Name of the bank account holder validating the individual instantly.

GST

▶ INTRODUCTION

With GST law implementation, all registered taxpayers got combined into one single platform for compliance and administration purposes and are assigned a unique registration number i.e. unique Goods and Services Tax Identification Number (GSTIN) controlled and managed by the single authority. Every business who crosses the threshold limit prescribed under this act must register themselves with the government.

▶ FEATURES

- Check account activation status
- Elimination of forged GST Number verification platform

DRIVER LICENSE VERIFICATION

▶ FEATURES

Driving license verification API process can be done by providing the user's date of birth and Driving License number, to the AadhaarAPI via API call, which in return will provide the complete details of the user driving license

Driver's licenses, ID cards issued by Indian jurisdictions are commonly used as proof of identity for many purposes; however, these documents can be counterfeit or altered.

Our service allows an organization to verify whether the license or ID card provided by their end-user matches the data held by the jurisdiction that has issued the document.
